

We believe that by providing a superior product, we will save you money in the long run.

Turf Tek ^{USA}
premium synthetic grass provider

The amount of experience we have in the industry has led us to develop the best in artificial turf technology as we sought to make our own product line that lived up to our standards. Turf Tek proudly offers a line of custom engineered landscaping turf that is designed specifically to withstand the vast climate changes of the Northeast while also aesthetically looking like it belongs here.

RESIDENTIAL APPLICATIONS

- Residential landscaping - Enjoying a beautiful property shouldn't require hard labor. Turf is a great option around pools, pavers, or anywhere you want your area to look perfect all year long!
- Quality Putting Greens - With the realistic feedback you would expect on a natural grass green, the low-maintenance putting green system gives you more time to enjoy the game.
- Dog Runs & Kennels - We'll help provide a clean, safe environment where waste can be easily rinsed through with a hose. Heavily used areas won't discolor, and allergens will be a thing of the past as well as fleas and ticks.
- Home Playgrounds - Turf Tek's home play areas provide safe, sanitary environments that are as durable as they are beautiful.
- Sports Fields & Courts - Turf Tek sports fields & courts offer the best speed, pace, and accuracy, allowing for multi-directional playability, the ability to play all year long, are durable, and can be installed indoors or outdoors.

COMMERCIAL APPLICATIONS

- Commercial Landscape - No more worrying about landscapers, weeds, or chemical runoff on your property. Let your customers, tenants, or community enjoy beautiful greenery all year long!

- Playground / Safety Surfaces - Safety first on our Turf Tek playgrounds. Turf Tek synthetic grass products are the ideal surfacing for playgrounds, daycare facilities, and community play areas.

- Rooftops - A lawn with a view! Our experienced design and installation experts know what works way up there, where there's no room to get it wrong. Your unique challenge is our proudest installation – trust Turf Tek to meet your highest expectations.

- Pet Areas - We love our furry friends! When it comes to dog and pet turf products, Turf Tek artificial grass is more conducive to your dog's health and well-being. Dogs love our turf, and for so many reasons, you will too.

- Sport Fields & Courts - Whether you need durable turf for athletic facilities or specialty turf for putting greens and bocce courts - we have you covered! We use the highest quality shock padding with non-tox infills.

BENEFITS OF ARTIFICIAL GRASS

Low Maintenance - No need for landscapers, lawnmowers, or edgers and no need to water.

Reduced Allergens - because grass pollen production is suppressed, there is a reduced chance of allergy symptoms.

Reduced Water Consumption - natural grass requires watering multiple times each week while turf needs no watering aside from the occasional hose cleaning.

Always looks beautiful - 365 days a year!

No Chemical Products - artificial grass eliminates the need for harmful pesticides, fertilizers, and fungicides.

Great for Pets:

- Easy Clean Up
- No Odor
- No Discolored Grass Areas
- No Mud Trekked Through The House
- No Digging
