

EZSET

The EZ Way to Build Stronger!

TRASS BINDER FOR RIGID & PERMEABLE SETTING BED

EZ Set is a trass based, fiber reinforced binder used to create a highly permeable, freeze thaw resistant bedding layer for paving stones, brick, porcelain tile and natural stone. **EZ Set** is easy to install and helps reduce efflorescence migration up through the pavement system. Available in either a ready-to-use or a concentrate form which is blended with $\frac{3}{8}$ " angular clear aggregate onsite.

Building with **EZ Set** will ensure your most demanding installations deliver solid performance for years to come.

- Easy to Install
- Consistent Results
- Maintains Drainage

FEATURES	BENEFITS
Trass-Blend Fiber Reinforced	• Creates a Rigid Structural Setting Bed
Promotes Internal System Drainage	• Reduces Freeze/Thaw Damage • Helps Minimize Efflorescence
Easy To Install	• Mixes Onsite with $\frac{3}{8}$ " Angular, Clear Stone • Ready to Use Option Also Available

INCREASES STRENGTH & PROMOTES DRAINAGE!

Available in 60 lb bags - Made in USA
